

My Book about Pets

A baby Cat is called a

kitten.

A group of kittens is called a litter

A Male cat is called a TOM.

A female CAT is called a Queen or a Molly

Cats are great hunters and eat birds, rodents, reptiles, fish & insects so we should always keep our cats indoors!

Cats sleep about 16 hours per day

DOG

A baby dog is called a **PUPPY**

A group of puppies is called a litter

Most dogs love to run and play so it is our job to keep them safe; walking on a leash, playing games in our fenced backyard, and always keeping them in the house when it is too cold or too hot.

Dogs sleep about 12-14 hours per day

colour the 10 animals people
have as
pets?

ALL Pets should visit their Doctor
regularly. Their Doctor is called a
vteenaarinri _____

(Unscramble the letters)

Is the following statements True or False?

To keep your pet healthy and safe you should:

1. Keep your cat indoors T F
2. Never give them water T F
3. Brush their teeth regularly T F
4. Brush their fur regularly T F
5. Feed them table scraps T F
6. Let them run loose T F
7. Walk your dog on a leash T F
8. Coyotes will never hurt your pet T F
9. Cats are smart will stay off the road T F
10. I need to protect my pet from ticks T F

Answers are on the back with explanations.

To keep your pet healthy and safe you should:

1. Keep your cat indoors ~ TRUE ~ Cats kept indoors are less likely to get sick from disease, parasites, injuries from fighting and getting hit by cars. In general, it is proven that indoor cats live much longer than outdoor cats. There is also a By-Law in Most Municipalities and Counties that your animal may not disturb other people's property – this means they cannot dig, bathroom, or do other damage.
2. Never always give them water ~ FALSE ~ All animals large or small need fresh water. If they are out in the weather or in the house, it is our responsibility to make sure their water is always fresh!
3. Brush their teeth regularly ~ TRUE ~ keeping their teeth clean will not only keep them healthier but will certainly cut down on dental surgery cost.
4. Brush their fur regularly ~ TRUE ~ Just like us, to keep the skin (scalp) healthy we need to brush their fur.
5. Feed them table scraps ~FALSE~ Why do we have table scraps? Because that is what it is ... scraps! Your pet needs a well-balanced diet – talk to your vet to see what is best for your pet.
6. Let them run loose ~ FALSE~ Running loose, if it is a dog is against the Bylaws AND will cost you \$ if caught by Animal Control. We have already spoken of the dangers for a cat to run lose.
7. Walk your dog on a leash ~ TRUE~ Absolutely!!! If you want your dog to have some exercise while on the leash, get a 20- or 40-foot leash.
8. Coyotes will never hurt your pet ~ FALSE ~ Your pet is Coyote Dinner
9. Cats are smart will stay off the road ~ FALSE ~ If you compare a cat to an 18-month-old toddler, everywhere is their playground and everything is exciting.
10. I need to protect my pet from ticks ~ TRUE~ Ticks can carry diseases that can be harmful to our pets, even fatal. Please use protection and Tick CHECK your pet AND yourself.
